

PROFESSIONAL SUMMARY

Software Engineering undergraduate with experience in full-stack development, distributed application workflows, REST APIs, database systems, and scalable web applications. Proficient in object-oriented programming, data structures, algorithms, and backend system design. Experienced with Agile-based collaborative development, API testing, authentication systems, and production-oriented application workflows.

EDUCATION

- Motilal Nehru National Institute of Technology** 2023 - present
B.Tech in Computer Science and Engineering CPI: 8.16 (till 5th sem)
- Rani Laxmi Bai Memorial School, Lucknow** 2022
Intermediate (CBSE), Uttar Pradesh Percentage: 95.4

TECHNICAL SKILLS

Programming Languages: C++, C, JavaScript
Frontend Development: React.js, Tailwind CSS, HTML, CSS
Backend Development: Node.js, Express.js, REST APIs, Authentication Systems
Databases: MongoDB, NoSQL Databases
Developer Tools: Git, GitHub, Postman, VS Code
Software Engineering Concepts: Object-Oriented Programming, Data Structures and Algorithms, Database Management Systems, Operating Systems, Computer Networks
Development Practices: Agile Methodologies, API Testing, Debugging, Version Control, Responsive Design

PERSONAL PROJECTS

- Model Smith** March, 2026
End-to-end AutoML system that generates neural architectures from CSV datasets and natural-language constraints.
 - Developed an end-to-end AutoML platform for generating neural network pipelines from structured CSV datasets and natural language constraints.
 - Built backend APIs using FastAPI for automated preprocessing, validation, model training, and inference workflows.
 - Implemented scalable data processing and model orchestration pipelines using PyTorch and Optuna.
 - Integrated MongoDB for metadata management and Cloudinary for artifact storage and retrieval.
 - Performed API validation and debugging workflows using Postman to ensure reliable backend integration and request handling.
 - Designed inference workflows enabling prediction generation on unseen datasets through an interactive UI.
- Event-Hub** Nov, 2024
A web application to help users find ideal meetup venues for an Event based on location and preferences.
 - Built a full-stack web application to recommend optimized meetup venues based on user location and preferences.
 - Developed RESTful backend services using Express.js and MongoDB for user management and event workflows.
 - Implemented secure authentication workflows including OAuth2-based Google Sign-In and password recovery systems.
 - Integrated third-party APIs including Google Maps APIs and Leaflet.js for route visualization, ETA calculation, and geospatial interactions.
 - Improved application usability through responsive frontend design and modular component-based architecture using React.js.

POSITIONS OF RESPONSIBILITY

- Co-ordinator** of MNNIT Athletics Club Jan 2026 - present
- Organizing Committee Lead:** Lead end-to-end execution of two **Annual Athletic Meets** (1,000+ participants), directing logistics and operations for 30+ events.

ACHIEVEMENTS

- Global Rank of 1292 in Codeforces Round 1071 (Div. 3)** out of 41,000+ participants, Dec, 2025
- Global Rank of 1386 in Leetcode Biweekly Contest 172** out of 30,000+ participants, Dec, 2025
- Global Rank of 2194 in Codeforces Div 2** out of 30,000+ participants Oct, 2025
- Global Rank of 309 in CodeChef Starters 170** out of 30,000 participants, Jan, 2025
- Solved 1100+ algorithmic and data structure problems across CP platforms** Nov, 2023 - present

CODING PROFILES

LeetCode	Codeforces	CodeChef	AtCoder
Knight, Max Rating: 1859	Pupil, Max Rating: 1312	2-star, Max Rating: 1528	8-Kyu, Max Rating: 543
